

No Name

Rush Of Fools

You compel me
You convince me
You are my supply
You pursue me
You speak to me
You are my reply

There is no name above Yours
No other one will do
No other one will do
There is no name I love more
Nobody else like you
Nobody else like you, Jesus

You engage me
You arrange me
You call me Your own
You have found me
You surround me
You've made Yourself known

There is no name above Yours
No other one will do
No other one will do
There is no name I love more
Nobody else like you
Nobody else like you, Jesus

You were, You are, You always will be
You are, You are
You were, You are, You always will be
You are, You are

There is no name above Yours
No other one will do
No other one

There is no name above Yours
No other one will do
No other one will do
There is no name I love more
Nobody else like you
Nobody else like you, Jesus
