

Cat Turned Blue

Rusted Root

What is that you said
Gotta whistle in the wind yea go down go down go down
Fear for me and I will fear for you, fear, fear
Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down

When the cat turned blue
What is that you said
You gotta whistle in the wind and again yea

Fear for me and I will fear for you
Fear

Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down

There must be some kinda way out of here
Said the joker to the thief
There's too much confusion
I can't get no relief

When the cat turned blue
