

The Movement

Rusted Root

It shouldn't have moved when I lifted it
It's not supposed to sit there
It shouldn't have fell into the middle of this

We go down with the mark goes up
Still you don't hesitate to write us off
I said it before, if you give us all you know, we wouldn't know
anyhow
Anyhow, don't sleep, don't sleep 'cause this movement is now fo
r free

So many come to boom-boom steady, it's a movement in the Sun
We go down with all of us (With all in formation)
We go down, my friend (We should always misplace our love)
I said this before, if you gave us all you (Know)
Something in your head is killing us
You're manic
On and on and on and on and on (And on)
So don't you hit, don't you run (Don't sleep, don't sleep)
('Cause this movement is not for free) Can't you see it's just
for fun?
Anyhow, no more of lonely charge
It's a movement inside of me

So many come to boom-boom steady, it's a movement in the Sun
So many come to boom-boom steady, it's a movement in the Sun
We go down when the mark goes up (With all in formation)
Still you don't hesitate to write us off (We should always misp
lace our love)
I said this before, if you give us all you know, we wouldn't kn
ow anyhow
Anyhow, don't sleep, don't sleep 'cause this movement is now fo
r free
Anyhow, don't sleep, don't sleep 'cause this movement is now fo
r free

So many, come to boom-boom steady, it's a movement in the Sun
So many, come to boom-boom steady, it's a movement in the Sun
