

Up And All Around

Rusted Root

I move within mine, I check it out
Nothing clearer than your Sun
But I know you, I've seen you through
I looked for your connection in your eyes

What a great feeling
I've been waiting for, I've been watching for
I can see the way, see the way in your soul
Get up, up, down
Up and all around
Hey, hey, would you say?
Don't you know I'm on your side?
And go with the weight of the world

I know you, I know what you do
I can surely say this
You're standing down on command, my love
You know I'm gonna see this in your eyes
What a great feeling
I've been waiting for, I've been watching for
I can see the way, see the way in your soul
Get up, up, down
Up and all around
Hey, hey, would you say?
Don't you know I'm on your side?
And go with the weight of the world

Mission bell rings from the burning tower
Drop out now and count your sorrows
(Teardrops dropping)
'Cause love will wait around to follow me home
You're on my tag

You got to love me, you got to meet me
Don't be a fool
Stand down on command, my love
You know I'm gonna see this in your eyes

What a great feeling
I've been waiting for, I've been watching for
I can see the way, see the way in your soul
Get up, up, down
Up and all around
Hey, hey, would you say?
Don't you know I'm on your side?
And go with the weight of the world
