

# Meow! Meow! Space Tiger

RX Bandits

You can find a lover  
And mold her out of clay  
You can build a reason  
To justify anything  
You can find your own way home  
Walkin down that lonesome road  
I know one

(you know that?)  
Say I won't but you know I can  
You know I can  
You know I can  
If you lost your love  
You will find your truth  
You'll find your truth  
When it comes for you

You can find an ocean  
To fill with tears  
Rememberin' the moment  
That we succumbed to fears  
Or we could build a masterpiece  
All grace and symmetry  
And move on  
We got to move on

You know that?  
Said I won't but you know I can  
You know I can  
You know I can  
If you lost your love  
Then you'll find your truth  
You'll find your truth  
When it comes for you

We all searchin for a reason  
To make sense of this life  
Said the fool when he discovered something true  
'Look outside, look outside'

Said I won't but you know I can  
You know I can  
You know I can  
If you lost your love then you'll find your truth  
You'll find your truth  
When it comes for you

Woah my  
Woah my  
She's not comin home
