

Metal Man

RX Bandits

Don't make me try to listen
To that ska-core crap
Just bust out some Metallica
Or pop in spinal tap

You say that metal's stupid
Wrong I think you need a reason
That's why I wrote this song
You say I don't care cause Satan is my best friend

Oh I don't know but its alright
I want you to know I don't know what you said
'Cause something you should know my friend
Is its much too loud for me to hear

I bash my head repeatedly
Hard into the wall
And fast I will will I repeat brain damage
Will I fall you can't expect that?

You don't think that's alright?
Well I don't care cause
I'll listen to metal all night!
