

Valentine's Day

RX Bandits

sometimes i get that feeling,
now i can hear you coming back again
how did we end up this way?
all that i ask is that one,
one day you'll look back and think of me now
maybe valentine's day

you said it meant nothing to me
life is just such a mystery
i think i'm crazy and i might
you know you brought me back to life

i can hear you in the silence
i can see you in the darkest light now
it could work someday
i know the sun will come out
i know the world will go around now
that's the price we'll pay
