It's gettin'-out time down at the high school We're checking out all the little cheerleaders like you With your cheerleadin' dress and your cheerleadin' shoes, Step over here baby shake hands with the blues Ol' blues like to ride in my Cadillac Likes to ride up in front likes to ease down in back Slide over baby this ain't what you think Ol' blues is gonna drive while I get us a drink Baby you can ride with me Hope you don't mind bein' three Pull up your dress and kick off your shoes You're gonna have a god time ridin' with the blues Goin' to take a little ride and see an old friend of mine Do a little business down on the state line If it don't feel right we'll bust right through Hang on baby you're ridin' with the blues If the police ask better give 'em the slip Tell 'em you been out on a high school field trip

If your teachers been wonderin' just where you been gone Tell 'em you're learnin' the blues from now on So pull up your dress and kick off your shoes Gonna have a good time ridin' with the blues
