

Chameleon

Ryan Beatty

When the lights fade out
And the people go
I get to see a secret side of you no one has seen before
When we're all alone

Your colors always change
You never act the same with me
Chameleon
It's like you disappeared
There's someone else right here with me
Chameleon
I look into your eyes
And I don't recognize
The one who's sweet with me when nobody's around
Chameleon

Later with a crowd
You start acting differently
It's impossible to figure out what you're in this for
And what you want from me

Your colors always change
You never act the same with me
Chameleon
It's like you disappeared
There's someone else right here with me
Chameleon
I look into your eyes
And I don't recognize
The one who's sweet with me when nobody's around
Chameleon

Your colors always change
You never act the same with me
Chameleon
It's like you disappeared
There's someone else right here with me
Chameleon
I look into your eyes
And I don't recognize
The one who's sweet with me when nobody's around
Chameleon
