

Hawkshaw

Ryan Beatty

You walked all this way to show me signs
It was a hawkshaw song stuck in my mind
I turned my back for second
I don't know why now
You're a thousand miles out of California

Double pierce the ears
Take a stab at it, take a stab at it
Let's try to make this happen
Double pierce the ears
Take a stab at it, take a stab at it
Let's try to make this happen, yeah

You walked all this way to show me signs
It was a hawkshaw song stuck in my mind
I turned my back for second

I don't know why now
You're a thousand miles out of California

Rinse your hair in the faucet
I watch you do your thing through the screen shine
My lip glossing nobody knows we've been talking I had a couple
boys
I met you, so I lost them you're so awesome

See me out your window (I'm tryna get to know you boy)
See me out your window (I'm tryna get to know you boy)
See me out your window (I'm trying trying trying trying trying)
See me out your window (are you paranoid?)
