

# America

Ryan Bingham

America  
America where have you gone  
Can't you see what's goin' on  
Can't you see what we've become

America  
America unload that gun  
Save a daughter, save a son  
Our bullets dress them up in blood

America  
America where have you gone  
There was a dream you gave us once  
Oh is it not for everyone

America, don't you leave us in the dark  
Oh let our lady light her torch  
Out in the harbor of new york  
And let her light make us as one
