

Pontiac

Ryan Bingham

Jumping Jack Flash in my Pontiac
Dancin' on the levee in the morning light
Smoke in my mirror makin' my heart bleed
Come on baby, touch me 'til I'm weak in the knees

Don't you go singin' down low and blue
Come around and love me like a lover do
Lift my feet up off the ground
Oh, my love never let me down

Belly full of speed and a stack of cash
Ace up my sleeve, baby, don't look back
Out of time but there's open road
Come on baby, touch me 'til I'm begging for more

Don't you go singin' down low and blue
Come around and love me like a lover do
Lift my feet up off the ground
My love never let me down

Hey hey sugar, come and jump on in
I said hey hey sugar, are you ready to roll
Hey hey sugar, wanna blow this town
You say "Don't you call me sugar, 'less you gonna go down"
Don't you let me down
Don't you let me down, love

Jumping Jack Flash in my Pontiac
Huffin' and a-puffin' on the seat on the back
This world's on fire and it's burnin' down
You said nothin' but our love is gonna save us now

Don't you go singin' down low and blue
Come around and love me like a lover do
Lift my feet up off the ground
My love never let me down
Don't you go singin' down low and blue
Come around and love me like a lover do
Lift my feet up off the ground
My love never let me down
