

# The Other Side

Ryan Bingham

Every time I turn around  
A man tries to get me down  
I just can't see your face  
I'm blinded by the sun  
Living on the run  
And I can't remember this place

Take me to the other side  
Let me go when I'm high  
Take me to the other side, pretty mama  
And on the wind won't you let me ride

I better slow down before I wreck  
Driving on the river's edge  
My momma says, "Come back home."  
But I can't keep em running fast  
Burning up the year's grass  
Another sands dirt road

Won't you take me to the other side  
Let me go when I'm high  
Won't you take me to the other side, pretty mama  
And on the wind won't you let me ride

Cowboy's your given name  
Nothing ever stays the same  
'Cept the rain falling down  
You can't keep from goin'  
No the wind is always damn cold  
It's time to put the hammer down

Won't you take me to the other side  
Let me go when I'm high  
Won't you take me to the other side, pretty mama  
And on the wind won't you let me ride

Won't you take me to the other side  
On the wind won't you let me ride  
Won't you take me to the other side, pretty mama  
And on the wind won't you let me ride
