

Top Shelf Drug

Ryan Bingham

Where in the hell have I gone
I woke up this morning undressed
Might have been a little too drunk
I can't get you out of my head

You shot me up, baby, with a wonderful love
I got a little taste, now I can't get enough
You shot me up, baby, with a wonderful love
Running through my veins like a top shelf drug

Got me walking in my sleep
Visions all around my bed
I'm loving these crazy dreams
I can't get you out of my head

You shot me up, baby, with a wonderful love
I got a little taste, now I can't get enough
You shot me up, baby, with a wonderful love
Running through my veins like a top shelf drug

No matter what I do or say
You're the butter on my bread
I need you every night and day
I can't get you out of my head

You shot me up, baby, with a wonderful love
I got a little taste, now I can't get enough
You shot me up, baby, with a wonderful love
Running through my veins like a top shelf drug

You shot me up, baby, with a wonderful love
I got a little taste, now I can't get enough
You shot me up, baby, with a wonderful love
Running through my veins like a top shelf drug

Where in the hell have I gone
I woke up this morning undressed
Might have been a little too drunk
I can't get you out of my head
