

# Shine On

Ryan Cabrera

I've given every moment I had  
still I can never seem to keep up with you  
you're done with one mile and on to another one thousand  
still I could never seem to keep up with you  
I know you'll be better off without me when I'm gone  
you know you're  
you're beautiful,  
you're beautiful

Shine on  
you were made to  
shine on  
and you know I love you  
and even if we can or can't be friends  
I'll be with you until the very end so  
shine on  
you were made to

It's keeping me awake everynight  
but I can never seem to give up on you  
I send up a prayer and I'm on to another one thousand  
I can never seem to give up on you  
I know you'll be better off without me when I'm gone  
you know you're  
you're beautiful,  
you're beautiful

Shine on  
you were made to  
shine on  
and you know I love you  
and even if we can or can't be friends  
I'll be with you until the very end so  
shine on, yeah

Nobody's wrong  
nobody's right  
keep moving on  
shine on, yeah  
you were made to  
shine on

Shine on  
you were made to  
shine on  
and you know I love you  
and even if we can or can't be friends  
we're gonna be brighter than we've ever been  
so shine on

You're gonna be just fine  
oh, you're gonna be alright love  
you're gonna be just fine  
oh, you're gonna be alright love
