

# Walking On Water

Ryan Cabrera

Look at you now  
Holdin' on by yourself  
Baby don't doubt  
You're walkin' on water

The light in your eyes  
Flows from the inside  
Beauty runs out  
You're walking on water

You're everything you need  
You're anything you want to be  
And everything you are is here right now  
The sun'll fall down  
The shadows come out  
Don't fear the clouds  
You're walking on water

You're everything you need  
You're anything you want to be  
And everything you are is here right now

Life is a dream  
Whatever you want it to be  
Don't let it slip away  
When love is here

You can call  
Any time at all  
Or if you need someone  
To cushion your fall  
You can lay me down

You're everything you need  
You're anything you want to be  
And everything you are is here right now

Life is a dream  
Whatever you want it to be  
Don't let it slip away  
When love is here  
So lay me down
