Straight Up The Middle

Ryan Malcolm

I've been knocked down
I'll get myself together
Face to the ground
I know it's now or never
This will be the last time

I comin' at ya
Straight up the middle
Nothing can pull me down
I'm gonna drive it straight up the middle
Nothing can stop me now
I'm gonna drive it straight up the middle
No one will ever bring me down

I fall back down
Can't pull myself together
When I come around
You're in for nasty weather
This will be the last time

Push me around
You should know better
Face to the ground
It's now or never

[Chorus 2x]
