

America

Ryan Star

See the faces on TV
Trying to relate to me
Sometimes I just have to close my eyes
I know I am not alone
Trying to find my way back home
Living in America

Brothers on the news again
Help me try and understand
Cover me, this feeling leaves me cold
Feel the rain is pouring down
New Orleans will never drown
Living in America

We grow up together here
Share our hopes and darkest fears
Come together right now over me
New York was a battle ground
Silence was the only sound
Living in America

Cowered underneath this sheet
People marching on the street
Rock&Roll allows a kid to dream
Feel the sunlight on your face
Moments of amazing grace
Living in America
Living in America

Living in America
Living in America
