

# I've Been Waiting

S.A.S

Yeah, you know who this is  
S.A.S., Streets All Salute, yeah (yeah)  
I've been the boss for years  
U.K. stand up like you lost your cheers

I hear the crowd in my ear, loud and it's clear  
Listen now, I been bringin' it down for some years  
Mega loungin', no, I sell a thousand  
Of mixtapes, disgrace, better than your albums  
You can see we upset, please give me respec  
Billboards, movies, geez, I ain't see a check  
Times that I'm countin', my rhymes yo they doubtin'  
I swear, over here it's like I'm climbing a mountain  
D.A., websites, grindin' and countin'  
Man chat my name, get slain, I'ma out them  
No rapper's as true as me, what you faggots can do to me  
You just mad cuz we're on Diplomatic Immunity  
Been tryna stay outta beef, make some paper  
What happened, I got into beef that made the papers  
Last thing, I'm a teacher, I earth these bastards  
So when I take 'em to school I hope they learn a lesson  
That I've been

(Waiting for something to happen)  
For how long  
(For a week or a month or a year)  
Yeah, yeah, yeah  
(Let the blood and the ink of the headlines)  
And what  
(And the sound of the crowd in my ear)

I've been waiting so patiently  
So let's wait and see if there's another spitter great as me  
From London to New York, I'm back again for the sake of this rapping thing  
And in the states, your boy Mayhem was trafficking  
Crack cocaine, brother I had cash to bring  
And any dude in our way we were smashing 'em  
So keep thinkin' it aint' a gun wit' a ax my friend  
See rap ain't just spittin' hooks and flows  
Met Jim in one year, nigga shook the bloke  
Cuz they was waitin' in Britian and spittin' gave me more fame  
Now I livin' is different from pitchin' off that raw 'caine  
Dipset, Eurogang, Fedayeen regime  
We're that movement that'll lean ya team  
Pay respect to every hood that I been and seen  
Call me ashy, I need the cream  
I've been patient

(Waiting for something to happen)  
For how long  
(For a week or a month or a year)  
Yeah, yeah, yeah  
(Let the blood and the ink of the headlines)  
And what  
(And the sound of the crowd in my ear)

Streets All Salute (Uh-huh)

Should've never let us in the game  
It's all over now, yeah  
Killa Cam, Juelz, Jim Jones, Freekey Zeekey  
Hold ya head man (Pox, super A&R)  
Eurogang, Fedayeen regime  
You know how we're doing it  
Yeah, and from this point on we're taking over everything  
We're gonna have mixtapes on the streets  
(Mixtapes around the world)  
Videos on every music channel  
We're everywhere (London Boys)  
Yeah, Dipset Eurogang
