

# I Just Came To Dance

S Club 8

I Just Came To Dance  
I see the DJ smile at me  
But I aint living in a fantasy  
And the crowd pressing down on me  
The music taking them to ecstasy

And they want love, love, love, love, love  
I need the music they need romance  
But i feel love every time I dance  
The drum beat pulsing  
Throught my veins  
And the rhythmns driving me insane

Cos when the music's right, it  
keeps you up all night There aint  
no money that this honey can't buy  
And if you want to be part of this  
fantasy I'll guarantee that there's  
no one left but me

Dancing to the music  
it's all that i know  
Just give me the dance floor baby  
You can take it all but leave me dancing at the disco

I feel the bass fill the room  
And now i'm dancing to my  
favourite tune  
Ooh and the rhythmnn pulling me on  
He's talking to me as he  
sings his song

I Just Came To Dance  
He sings of love love, love, love, love, love
