Run

Now that I
Have you by
My side
All the time

I won't
Won't let you go
Ever again
All this I know

You and me
Less than 3
This is how
We're meant to be

I can't live without you in my life

Until now
I always thought I
Could live without you by
My side all the way

And so now
I hold you so close
I'll never let you go
You're my less than three

Now that I
Have you by
My side
All the time

I won't
Won't let you go
Ever again
All this I know

You and me
Less than 3
This is how
We're meant to be

I can't live without you in my life

Until now
I always thought I
Could live without you by
My side all the way

And so now
I hold you so close
I'll never let you go
You're my less than three
