

(Masturbate to hentai)

Oh-oh-oh... I
Want a hentai girl for me, to make me happy
I want her so I can stop using my hand
Every single day while watching anime
I'd pull her from my screen just like in my dreams
I want to feel her touch
Mainly on my crotch (hentai)

I want my own hentai girl
And she would sing
La la la...

I'm stuck here in cyberspace and I can't get out to be with you
What can I do to be with you?
To be with you? (you...)

I know our love's forbidden
I know our love can't be
But I cannot help feeling
You're the only one for me
We're like a true love story
Romeo and Juliet
Our two worlds cannot be as one
And it hasn't stopped us yet

When at last
I'm with you
Our embrace
Will shake the room
Finally
We'll be at one
Like the soulmates we've become

I first spoke to you so long ago
A day I can't forget, oh the day when we first met
We've never been close enough to touch
I feel like you know me better than anybody
But now, the world I knew will fade away, cause today is the turn of the page

Soon all of my dreams
They will come true
They have to
Yes, when I'm there with you
Yes, when I'm there with you
Yes, when I'm there with you

Hey, hey, look at me
I'm what you want to see
I promise I am real
Not trying to deceive
Won't believe your eyes
You won't believe it's true
Just come with me right now
I'll take and show you

Ooh...
You really thought I was
What you were looking for?
Ooh...
Guess I got in your head
You just got baited

Ha, I got you...
