

# Nostalgic

S3RL

The night was young  
the music played  
the atmosphere  
intoxicates  
as people move  
and lasers dance  
I saw you there  
with just a glance.  
Through the dark  
I met your gaze  
I remember  
like yesterday  
for in that time  
a song did play  
that will remind  
me of that day

Whenever I hear that song I get nostalgic  
Cause it played the first time I laid eyes on you  
And if that song comes on I don't fight it  
I turn it up and dance the whole way through

I get nostalgic-ic-ic-ic-ic-ic-ic...

Whenever I hear that song I get nostalgic  
Cause it played the first time I laid eyes on you  
And if that song comes on I don't fight it  
I turn it up and dance the whole way through

I get nostalgic  
whole way through

I get nostalgic  
whole way through

The night was young  
the music played  
the atmosphere  
intoxicates  
as people move  
and lasers dance  
I saw you there  
with just a glance.  
Through the dark  
I met your gaze  
I remember  
like yesterday  
for in that time  
a song did play  
that will remind  
me of that day

I get nostalgic  
whole way through

I - get - I - get - I get  
I - get - I - get - no - stal - gic-ic-ic-ic-ic...

Whenever I hear that song I get nostalgic  
Cause it played the first time I laid eyes on you  
And if that song comes on I don't fight it  
I turn it up and dance the whole way through  
I get nostalgic

I get nostalgic  
whole way through
