

# Ravers Mashup

S3RL

Now follow me into the raver dimension

I know this pretty rave girl, always think about her  
And when she says hi to me, butterflies go right through me  
And when I see her dancin', wanna take a chance in  
Getting a little closer and maybe get to know, know, know...  
(Yeah, yeah, here we go)

I know this pretty rave girl, always think about her  
And when she says hi to me, butterflies go right through me  
And when I see her dancin', wanna take a chance in  
Getting a little closer and maybe get to know, know, know...

Stomp your feet, keep it going in contention  
Part of ascension, throw it into hypertension  
It's my invention, come and step at your discretion  
It's going in down in the raver dimension  
Raise your hands and heartbeat

Be, be my rave boy, we can have some fun  
Dancing together till morning sun  
My heart is racing if only you knew  
I can't imagine my life without you  
I can just imagine our cute raver life  
Holding hands together under laser lights  
Waiting for the build-up so we can lose our minds  
If only you knew I want to make you mine

Little kandi raver, she's my number one  
And everytime I see her movin' she's always having fun  
She's my little kandi raver, see her shake her thing  
I love to see her dance and I love to hear her sing  
Kandi boy raver, he's the one for me  
And when the music starts to play he'll be dancin' to the beat  
He's my kandi boy raver movin' with the flow  
When he holds me tight don't wanna let him go (Won't let you go)

Dancing together till morning sun  
Waiting for the build-up so we can lose our minds  
Dreams to lose yourself inside, hidden in the sands of time  
More to me than my surprise  
I don't feel like I do belong  
When he holds me tight don't wanna let him go

Lalalalalalala, lalalalalalala, lalalalalala, yeah yeah yeah  
Ya ever wonder where people of the sun get it done  
Pack and run, and have a ton of fun  
Well it's happy place, rip and shake, journey into outer space  
Ticket bought and here we go, spread the love and you will know

As the sun sets, we are waiting  
For a night of non-stop Raving  
And when the night ends we come together  
Wishing we could rave forever  
It's a raver dimension  
As the sun sets, we are waiting  
For a night of non-stop Raving

And when the night ends we come together  
Wishing we could rave forever
