As I breathe the snow white line
As it races through my mind
I grow wings and I can fly
I dance on the clouds up high
As I breathe the snow white line
I leave all my cares behind
Now I'm feeling so alive
As I breathe the snow white line

As I breathe the snow white line
As it races through my mind
I grow wings and I can fly
I dance on the clouds up high
As I breathe the snow white line
I leave all my cares behind
Now I'm feeling so alive
