

You walk into the party

You start to feel the heat

You notice that your body

Is moving to the beat

You just can't shake that feeling

That you're right off your face

This is how we do it

Welcome to Summerbass

Summerbass,

Is the place,  
We can all get off our face.

Summerbass,

Is the place,  
We come to party harder.

Summerbass,

Is the place,  
We can all get off our face.

Summerbass,

Is the place,  
The place to be.

We can all get off our face.
