

Hurt People

Sabrina Claudio

You know I'm tryna heal some things
And you're tryna hurry up the process just to find love
And you'll know when you feel empty, baby
I tried to give you what you need while taking all the anger

Didn't even want attention, babe
You know that you're all that I've got
And I never meant to hurt us, baby
I'm just tryna learn how to love

I wish that I could mend you, babe
But I'd be putting you together while I'm falling apart
And still I find you tryna find my pieces
How could you give the kinda love I need with your broken heart
?

But I know all your intentions, baby
I know that I'm all that you got
And you never meant to hurt us, baby
You're just tryna learn how to love

How to love
We're just tryna learn how to love
How to love
Oh-oh-oh

(Hurt people, hurt people)
(Hurt people, hurt people)
'Cause we both have good intentions, baby
(Hurt people, hurt people)
(Hurt people, hurt people)
We know that we're all that we've got
(Hurt people, hurt people)
(Hurt people, hurt people)
And I'm out of hurting, baby
(Hurt people, hurt people)
(Hurt people, hurt people)
We will make a way and find love
