

Warm December

Sabrina Claudio

It's gonna be a warm December
Makin' memories to last 'til next November
It's gonna be a warm, warm December
'Cause this holiday, I got you with me

As we cuddle up next to the fireplace
We'll be burnin' up our own flames
Hangin' like a thousand mistletoes
So I can kiss you everywhere you go

No, I didn't even make a list this year
'Cause everything I need is all right here
In those eyes (Those eyes)
It might be freezin' outside

But it's gonna be a warm December
Makin' memories to last 'til next November
It's gonna be a warm, warm December
'Cause this holiday, I got you with me

Unwrap my love and open me up (Open me up)
It's the season of givin', so let me give you what you want
(Let me give you what you want)

I didn't even make a list this year
'Cause everything I need is all right here
In those eyes
It might be freezin' outside

But it's gonna be a warm December
Makin' memories (Oh, makin' memories) to last 'til next November
It's gonna be a warm, warm December (Warm December)
'Cause this holiday, I got you with me

I got you with me
I got you with me
