

Afraid to Love

Sabrina

When you loved her I remember
All the moments you spent together
Now she left you, so you hate her
Please forget her
Believe in your future

It's not a disaster
If you look around you
You can desire (Ooh, ooh)
Another who has love too
We're gonna live it

'Cause you are afraid to love me
Trying to lose your self-control
Baby I will love you forever
And saying the truth, the truth
Baby I want you
You are afraid to love me
Trying to lose your self-control
Baby I will love you forever
And saying the truth, the truth
Baby I want you

If you trust me I can show you
How is perfect to be together
Let your love shine for me baby
Please forget her
Believe in your future

It's not a disaster
If you look around you
You can desire (Ooh, ooh)
Another who has love too
We're gonna live it

'Cause you are afraid to love me
Trying to lose your self-control
Baby I will love you forever
And saying the truth, the truth
Baby I want you
You are afraid to love me
Trying to lose your self-control
Baby I will love you forever
And saying the truth, the truth
Baby I want you

Je t'aime...
Je t'aime...
Je t'aime...
Je t'aime...

It's not a disaster
If you look around you
You can desire (Ooh, ooh)
Another who has love too
We're gonna live it

'Cause you are afraid to love me
Trying to lose your self-control
Baby I will love you forever
And saying the truth, the truth
Baby I want you
You are afraid to love me
Trying to lose your self-control
Baby I will love you forever
And saying the truth, the truth
Baby I want you
