

Guys and Dolls

Sabrina

Guys they just take your heart
And they say hello my baby
Dolls they try to forget
And they look for other lovers

But even though they always fight
They look for love for all the time

Boys they say we are the boss
We have so many stories to tell
Girls they say it's not the true
We have to break this wall between us

But even though you don't believe me
I wanna make love and try all satisfaction

Guys and dolls they go out together
Trying to take through love satisfaction
Guys and dolls they want to stay together
Loving them each other forever

Hey, I'm a kind of doll
Who has lost control just for you
Guys please don't let me down
It's not a joke I really love you

But even though you don't believe me
I wanna make love and try all satisfaction

Guys and dolls they go out together
Trying to take through love satisfaction
Guys and dolls they want to stay together
Loving them each other forever

Guys and dolls they go out together
Trying to take through love satisfaction
Guys and dolls they want to stay together
Loving them each other forever

Hot
I wanna make
I wanna make
I wanna make love
Hot Hot
