

I Want You

Sabrina

All the time that I spent with you
All the pain that I had from you
All the love that I gave to you
Now what is true, I'm still thinking of you

I wanna know now, are you still in love
With the girl you once said you love too
Just wanna know now
Are you still in love with me baby

I want you so, I love you
Where could I go without your love
I want you so, I need you
Should I fall down without you baby

Every moment of truth with you
All the secrets I share with you
And the fire still burns for you
Now what is true
I can't live without you
