

Jimmy, Jimmy, Jimmy is afraid of me
But Jack was nothing baby
It doesn't matter what your friends may think about me
Jack was nothing baby

Jimmy, Jimmy, Jimmy on apple tree
Tried to kiss his baby
Another Eve for you is all I wanted to be
Jack was nothing baby

C'mon Jimmy
Don't tell me that I'm a liar
Once I had your love it made me feel so fine
When you hold me, I lose direction of time
Now I live alone, I miss you everyday

In paradise I was with you
I'm left alone without a kiss
And now this room it's too cold to me
I want you, need you, want you, miss you

Jimmy, Jimmy, Jimmy is afraid of me
But Jack was nothing baby
It doesn't matter what your friends may think about me
Jack was nothing baby

Jimmy, Jimmy, Jimmy on apple tree
Tried to kiss his baby
Another Eve for you is all I wanted to be
Jack was nothing baby

Listen Jimmy
Maybe I'm not for you
But please don't listen to the stupid things they say
Maybe one day, we'll understand our mistakes
But now we're far apart, I miss you everyday
