

# Promises in the Dark

Sabrina

Under cover of darkness  
Strangers look like friends  
People looking for a miracle  
You know it never ends  
And you ask me to believe in you  
Tell me why I should  
I wanna stay, I wanna walk away  
Why does it hurt so good?

Maybe I still believe in fairy tales  
No love is touch and go  
You know it's over in a heartbeat (Morning)  
Too soon to let it show

Promises, I hear your promises  
Living on promises in the dark

I feel your hands on my body  
Tell me loving lies  
But is your love a mystery? Or just a false disguise?  
I wanna know what this is all about  
I can't go on this way  
Before I face another morning (Heartbeat)  
What have you got to say?

Promises, I hear your promises  
Living on promises in the dark

So close to love and still so far away  
I'm being slowly torn apart by your promises, your sweet, sweet  
Promises in the dark, ooh in the dark, ooh yeah

I wanna know what this is all about  
I can't go on this way  
Before I face another morning (Morning)  
What have you got to say?

Promises, I hear your promises  
Living on promises  
Promises, I hear your promises  
Living on promises in the dark  
Promises, I hear your promises  
Living on promises  
Promises, I hear your promises  
Living on promises in the dark  
Promises, promises, promises, promises (Promises)
