

# Death Valley

Sacred Reich

Living life like there's no tomorrow  
Take the day just as it is  
Full of love despite the sorrow  
Nothing more than just this

I spend my time down in Death Valley  
And I live and I die down in Death Valley

Time, it always slips away  
Getting closer every day

Moving on into the Bardo  
Everything is like a dream  
Looking for a woman to borrow  
Right back into the stream

I spend my time down in Death Valley  
And I live and I die down in Death Valley

Time, it always slips away  
Getting closer every day

As long as time and space abide  
For as long as we shall live  
Until then may I too remain  
To dispel the miseries of this world

I spend my time down in Death Valley  
And I live and I die down in Death Valley

Time, it always slips away  
Getting closer every day
