

Let there be steel

Sacred Steel

Rise and heed the calling - Come prepare to fight
Ride - The day is dawning - Farewell to the night
Blood and steel will conquer - Take this broken land
Soldiers marching onward - Under death's command

Hear the sound of my warning
None can stop the hell they'll bring

They shall grant no mercy - Baptize by the sword
They will slay with fury - Death their only lord

Hell unleashed upon earth
Hell unleashed upon mankind

Rise to Kill - Let there be metal - Let there be steel
Stand and kill - Let there be metal
Let there be sacred steel - To kill
Let there be metal - Let there be steel
Stand and kill - Let there be metal
Let there be sacred steel

Heaven on your mind and metal through your soul
Burning in my eyes - The last sight you behold

Hear the sound of my warning
None can stop the hell they'll bring

They shall grant no mercy - Baptize by the sword
They will slay with fury - Death their only lord

Hell unleashed upon earth
Hell unleashed upon mankind

Rise to Kill - Let there be metal - Let there be steel
Stand and kill - Let there be metal
Let there be sacred steel - To kill
Let there be metal - Let there be steel
Stand and kill - Let there be metal
Let there be sacred steel

Tonight I'll meet you there - For one last time to share
The bond we held for oh so long
Please tell our children why - Their father had to die
They sure will see I was not wrong

And when you'll see them cry - Tell them I'm here up high
And I still guide them with my love
One day they'll join me here - Beyond all pain and fear
You and me and them will be united again

No - Men don't kneel - Men stand and kill
Until their blood - Until their blood is spilled
No - Men don't kneel - men stand and kill
And so we pray - Let sacred be our steel
