

# Under the Banner of Blasphemy

Sacred Steel

Religion is the enemy - Unholy plague  
As long as there is blind belief - Things will not change  
How can you still believe in gods - Main cause for wars  
Why don't really start to think - Deny what's false

Put an end to misery and render hope  
To those infected by disease - Science enthroned  
It's time for reason to arise - Put faith to death  
Fight superstition with atheistic wrath

Brothers of disbelief unite  
Under the banner of blasphemy to destroy heaven  
Crush the holy - Rip the skies

It's time to rise - It's time to fight

Under the banner of blasphemy  
Tear al icons down - Grind them to the ground  
No more holy wars - No masters and no gods

Unite in blasphemy - Unite

To the death
