

Wargods of Metal

Sacred Steel

War
Reign in blood, reign in fire
Masters of eternity
Born of steel, born of iron
Immortal metal deities
Give us war, give us passion
Soldiers under your command
We will fight for your glory
We will fight until the end
Metalheads unite
Now stand up and fight
Wargods of metal
Wargods of metal
Wargods of metal rule the fight
Wargods of metal rule the fight
Die in blood, die in fire
Archfiend of dark misery
Pay in guts, feed the lion
For the griffin still is king
Banners fly, armour's clashing
And the wargods lead us on
Into war, into slaughter
Now the bloodshed has begun
