

It Used to Be a Way

Sad Harmony

I'll be that cruel, searching on my own.
Cause i'm that fool, all the time so bad.
All my limbs are freezing all the way
I'm standing in the deepest hole of the world.
Merciful, calm my dear, cause you're my balm

Breaking fences, love's still fading away, i'm starved & beaten
Hold me up i'm close to lose the way
That i believed in

Some days i'm waking up and gently feeling doubt
Something wrong is coming
Just because we're leaving all alone and offend
I know that you're better
I declare it forever
Now i'm walking out

My love is overfilled
The dead may feel no wrong
Don't let me wait so long

Still breathing...
