

Tetragonal Pill

Sad Harmony

Hasted days
We just fly
Burning trees scattered all along the way
Shall we sleep, shall i sleep
When every dream seems o.k
Ain't it sweet
As years go by
Longing for connection, don't you keep me away
Burning leaves and i leave
So stop the game that you play
I'll abandon my sorrow
If you will come to me tommorrow
Morning shines
Golden round
Holy light removed curtains of the night
Let me see that all can better be
And all is bright today
Strange cloud flows
On the sky
An emmet lost its way
Where on grass methought i lay
Wasting time corresponding to crime
How much we have to pay?
I'll abandon...
Forgive me this stolen day
Hold me tight get me away
From my mind
