The Path

Surviving gotta leave it now My greed for flesh, my cruelty I'll let them fall down like a block On such an empty humanity

I'm sorry friends of mine I'm sorry for the next dawn you won't see again No time for raving escapes

Last stop!

With bites your stomach I chop Your skin my claws will make fall I love to see the muddy ground Takin' live from your blood

Last stop!

I'm here to take you far away Up in the north - northern than here In such a grotesque slaughter house You are gonna be welcome

I'm sorry friends of mine But you have to know There won't be any new dawn ...again, never again

Last stop!

With bites your stomach I chop Your skin my claws will make fall I love to see the muddy ground Takin' live from your blood

With bites your stomach I chop Your skin my claws will make fall I love to see the muddy ground Takin' live from your blood

Last stop! Here I come Sadist
