

# Out for Blood

Sadus

I answer to no one  
And make no mistake  
Got my thumb on the pulse of the nation  
And it's mine to take  
A whole new world  
is in my eyes  
A land of anger  
Why must they die?

Out for blood

MURDER...lashing out, the will to kill, to take a life  
KILLER.....the one who slays, the blood on hand, the  
face of man  
SINNER.....the word they say, the book obey, damn you  
man  
RULER.....the king of man, the will on hand, the one  
to obey

The weak must abide  
With power to break down their pride  
Insanity, confusion presides  
The weak must fall  
With power that threatens us all  
The will to kill them all

You can't shut me out  
I'm going to get in  
Got my eyes on the territory  
And what lies within  
You pry and pry  
I won't let you win  
You try and try  
I can't give in
