

Another Day Out of Sight

Saga

Now don't you wish that everything
Was just the way it seems
'Cause sometimes there's no difference
From my travels to my dreams

Silence goes unsatisfied
A journey to no end
We gather up the memories
There's more just 'round the bend

Another day out of sight
And then it's you and the night

A change is always good they say
I wonder why we wait
It doesn't matter anyway
You know I'm always late

It's nothing new fight or flight
But when you see me tonight
I'll let you know I'm alright

Another day out of sight
But if you turn down the light
Then it's you and the night

If I was made of armour plate
Oh wouldn't that be great
I don't know if that's a giveaway
But I'm knocking at the gate

And I love the days I'm MIA
Just watch me fade away
It doesn't matter anyway
You know I'm always late

It's nothing new fight or flight
But when you see me tonight
I'll let you know I'm alright

Another day out of sight
But if you turn down the light
Then it's you and the night

Another day out of sight
And then it's you and the night

Another day out of sight
But if you turn down the light
Then it's you and the night

It's nothing new fight or flight
But when you see me tonight
I'll let you know I'm alright

Another day out of sight
But if you turn down the light

Then it's you and the night
