

On My Way

Saga

Is this the time?
We turn the tide, well I'll be here waiting
You're always running
There's always something
You tell me now
But I'm not clear on what you've been up till
If I can't see you
Should I believe you

On my way
Just watch my great escape
Time to change
Change comes to those who wait

There'll come a time
I don't know why but this will be over
I'm on the inside
But I'm looking outside
Where will we go?
What will we see if we ever get there?
It doesn't matter
We've climbed the ladder

On my way
I know of a better place
Don't be late
Here comes our face to face

On my way
I know of a better place
Don't be late
