

Show and Tell

Saga

We're here right now
We're doing it again,
Like we've been doin' it forever
Don't let me down
How can this end
If you keep tellin' me whatever?
How do I sound
Let's just pretend
We've had a spate of nasty weather
Here's the countdown
Backwards from ten
It's time we finally came together
Here's to the day we all play
Show and tell
Here's to the day we all say
All is well...
We're here right now
It's never too late
To make the final first impression
How do I sound?
There's a light at the end
We're moving in the right direction
Here's to the day we all play
Show and tell
Here's to the day we all say
All is...
Don't let me down
Let's just pretend
We're eye to eye and there's no pressure
Here's the countdown
Backwards from ten
Let's not resort the drastic measures
Somewhere someone draws the line
And winds up working overtime
If you go your way'n I go mine
We've only wasted precious time
Somewhere someone takes the time
To listen to the other side
(Take) one step closer, close your eyes
And now you're crossing party lines
We're here right now
We've done it again
Like we've been doin' it forever
Don't let me down
So backwards from ten
Maybe this time we'll come together
Somewhere someone draws the line
And winds up working overtime
If you go your way'n I go mine
We've only wasted precious time
Somewhere someone takes the time
Listen to the other side
(Take) one step closer, close your eyes
And now you're crossing party lines
