

Vital Signs

Saga

After we're done with all the
Catch me if you can, now
What do you think you'll best remember?
Isn't it time we let
Somebody else wave the flag, 'cos
We haven't seen it raised
Since last September

One foot over the line's what keeps us
Sneaking through the shadows
One word spoken in kind will find us
Back where we belong

After all is said and done
We've barely scratched the surface
But I think it's time we
Made a little room to breathe
How 'bout we play a little game of
Hide & seek for service
It's always been a beautiful sight to see
One foot over the line's what keeps us
Sneaking through the shadows
One word spoken in kind will find us
Back where we belong

We're barely human at the best of times
Best not forget to check your vital signs

It's really of no consequence
Your good or bad intentions
So long as every move is
Made with style

So now we're done with all the
Catch me if you can, well
What do you think you'll best remember?

One foot over the line's what keeps us
Sneaking through the shadows
One word spoken in kind will find us
Back where we belong

One foot over the line's what keeps us
Sneaking through the shadows
One word spoken in kind will find us
Back where we belong

We're barely human at the best of times
Best not forget to check your vital signs

One foot over the line's what keeps us
Sneaking through the shadows
One word spoken in kind will find us
Back where we belong

One foot over the line's what keeps us
Sneaking through the shadows

One word spoken in kind will find us
Back where we belong
