

## Now and Later

Sage the Gemini

I can be your life saver  
Treat me like a jaw breaker  
You got 31 flavors, baby  
You can get this now and later, now or later  
You can get this now and later, now or later  
It's your choice

Stop playing, you acting like I don't this  
Built an empire, you Cookie, I'mma be Lucious  
Give me good head until you get a conclusion  
If you don't come back, I think I'mma lose it  
I think I'mma lose it  
If I ever had your number, I think I would use it  
I'm feeling some way, you know I hate losing  
If your heart was in a bank, I'd rob it just to prove it  
Come on, you a mean diva  
I'll grab your problems by the neck like I'm John Cena  
You got a past, I didn't get to go to prom, either  
So don't make it hard to believe that I need you

You're beautiful like spring time  
Let me know you in the meantime  
Hopefully, if things seem right  
I'mma be needing your ring size

I can be your life saver  
Treat me like a jaw breaker  
You got 31 flavors, baby  
You can get this now and later, now or later  
You can get this now and later, now or later  
It's your choice

I love attitudes, but not the drama  
You made it to my heart, hamdoullah al salama  
Salam aleikoum you lead my salama  
You know my charm, you say it brings problems  
Let me love you, put nothing above you  
If we see your ex, I'll overly kiss and hug you  
Make him jealous, now he's overzealous  
Tryna act cool, I think he's over-selling  
I don't mean no harm  
I'm always there, Sage from State Farm  
Whatever you do, don't ban me from your heart  
I pray to God he don't keep us apart

You're beautiful like spring time  
Let me know you in the meantime  
Hopefully, if things seem right  
I'mma be needing your ring size

I can be your life saver  
Treat me like a jaw breaker  
You got 31 flavors, baby  
You can get this now and later, now or later  
You can get this now and later, now or later  
It's your choice

Let me see what you came to do  
You're a sugar rush to my sweet tooth  
You're a sugar rush to my sweet tooth  
You're a sugar rush to my sweet tooth  
Let me see what you came to do  
You're a sugar rush to my sweet tooth
