

Cascadia

Said the Whale

I feel frozen and lonely,
I wanna wake up happy enough, welcoming sun in my bedroom
Maybe northern California
I need a dose of the sea
Sleep on the beach just for a week with no trouble
It's all irrational but somewhere there's a green and white and
blue flag waving

I wanna build Cascadia
California in the sunlight
I wanna build Cascadia
Oregon Shores would be alright

I care about policy in increments, it's seasonal
I care about people and their loved ones, I do
I care about the colour of your eyes as much as I can see the way
you elegantly move

I wanna build Cascadia
California in the sunlight
I wanna build Cascadio
Oregon Shores would be alright
I wanna build Cascadia
California in the spotlight
I wanna build Cascadia
Snoqualmie and the Columbia

I'm fearful of the consequence of solving all your problems
I'm happy here
I know its real
Its common ground
It's evergreen
It's mass appeal
It's underground
It's what I know
It's lost and found
It's seasonal

I wanna build Cascadia
California in the sunlight
I wanna build Cascadio
Oregon Shores would be alright
I wanna build Cascadia
California in the spotlight
I wanna build Cascadia
Snoqualmie and the Columbia
