

Confidence

Said the Whale

I heard that you've got the whole town
I heard you run it
I heard you lost someone close to you
Last year in the summer
I heard that you moved downtown
I heard you love it
I heard you like the way people yell
Just for the fuck of it
And if it happened to you
And if it happened to you then it can happen

Call it what you want, con confidence
Call it what you want, con confidence
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(no one else)
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(no one else)
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(I see you)

Remember asking me if all meant nothing?
I stopped the car about a mile away
You were the first out running
I've been trying to play catch-up for a while now
When the car crashed and you never got asked
How it might have been if you just slowed down

Call it what you want, con confidence
Call it what you want, con confidence
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(no one else)
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(no one else)
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(I see you)

What do you care if I go with them?
For the summer
What do you care if I go with them?
Just for the meantime

Call it what you want, con confidence
Call it what you want, con confidence
(What do you care if I go with them?
For the summer)

Call it what you want, con confidence
Call it what you want, con confidence
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(no one else)
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
(no one else)
Call it what you want, con confidence
(I see you)
Call it what you want, con confidence
