

Lilac And Willow

Said the Whale

It's like first prize, we get with the tides
First ones awake, it's like sweet nostalgia
Call it what you will, I call it motivation
More inspiration I need, all I do is dream
All I do is dream

Lilac and willow to sweeten the air
From my pillow, all I do is dream,
All I do is dream, all I do is dream,
All I do is dream, dream

First ones were up with the sun, first breath
I take, it's like sweet nostalgia.
Call it what you will, I call it my inspiration,
my motivation I need, all I do is dream
All I do is dream

Lilac and willow to sweeten the day
From my window, all I do is dream,
All I do is dream
Lilac and willow all I do is dream,
All I do is dream...

I close my eyes, I pray for sleep
It's the same bad dream for nearly a week now
And lord how I've tried, can't catch no shut eye
can't catch no shut eye...

(Sleeping out under bright moonlight in my own backyard,
I was bored of the stars so I got high)

Lilac and willow, all I do is dream
All I do is dream, all I do is dream
All I do is dream, all I do is dream
All I do is dream, all I do is dream...
