

Love Always

Said the Whale

We were shootin' sparks in the dark at the same time, oh
I took a piece of your heart, you took a piece of mine, oh

You said "love would be the answer"
The answer is love
Love, always the answer
The answer is love, always

I was staying up, you were dreaming
At the same time we're alone
But underneath our layers we are lovers
Of the same kind, oh
Sleep long with the TV on
Sweet light with all of the answers
With nothing up above us
We're believers of the same mind, oh

We said "love would be the answer"
The answer is love
Love, always the answer
The answer is love, always
Always, always the answer
The answer
Always, always the answer
The answer is love

Love, love be kind
Love be the answer
Love see the sunrise
Love be the dancer
Love bend the light
Love shake the trees
Love feel the moonlight

Always the answer, the answer
Always, always the answer
The answer is love
The answer, the answer is love
Love, always the answer
The answer is love, always
